

Banz Monastery

Basilica of the "Fourteen Saints"

Coburg Castle

- Region:** Our variety of countryside in a low mountain range with gentle hills, wide river valleys and areas of lakes is just made for celebrations, climbing, concerts, cycling, fishing, health cures, keeping fit, riding, swimming, the pleasant atmosphere of the beer garden, walking, wind surfing; to name just a few. Sport, games, relaxation, idyllic and romantic surroundings. A pleasure to enjoy them here.
- Sights:** Museums, culture and unique works of art have left their mark on countryside and people.
- People:** We are a warm-hearted kind of people with a lot of humour and an appreciation of what is good, especially as far as cuisine and cellar is concerned.
- Cuisine:** Specialities are the home-made-style suppers in one of the many small country breweries, mostly family concerns with long tradition. And of course our famous "Green dumplings" ("Grüna Klüäß" in local dialect) to go with the tasty roasts. Try the fried sausages, too.
- Celebrations:** Celebrating is our favourite hobby and we like to have company for it. Brass band music and specialities are all part of it. And there is always a good cause for a celebration.
- Leisure:** We can offer over 90 main sorts of leisure facilities. Where else would you find so many chances to enjoy a holiday full of variety: convivial, amusing, sporting or restful, instructive or quiet, coupled with pleasure and culture.
- Health cure:** Often a first reason for a stay in the Upper Main Valley – Coburg District – and then you come again and again.
